SCOPE

The conference will have oral and poster sessions covering topics such as those given below:

- Shape memory alloys
- Functional materials
- Electronic materials and devices
- Advanced ceramics
- Advanced composites
- Self-healing materials
- High temperature materials
- New energy materials
- Energy storage materials
- Additive manufacturing
- Biomaterials
- Nanomaterials and structures
- Advanced processing and joining techniques
- Hydrogen production, storage and applications

PUBLICATION OPPORTUNITIES

High-quality and original papers, selected based on reviewers' recommendations, will be published in :

- Nanomaterials and Energy
- Transactions of the Indian Ceramic Society
- Journal of Alloys and Metallurgical Systems (Special issue on High Entropy Alloys)

Author Guidelines can be found on the conference website (www.icmat2024.com)

PREAMBLE

The International Conference on Materials for Advanced Technology brings together the world's leading academic scholars, researchers, and industrialists to exchange and share information on all aspects of advancements in materials science and technology. In addition, the conference provides a premier interdisciplinary forum for researchers, practitioners, and educators to explore and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in their respective fields.

In today's rapidly changing world of materials, there are many fascinating and ever-growing options. The understanding of such a wide variety of materials demand an interdisciplinary knowledge of disciplines such as materials science and engineering, mechanical engineering, physics, chemistry, biology and mathematics.

ICAMT-2024 will feature some of the world's leading experts as keynote speakers and poster presenters. These will inspire the researchers with an exposure to a variety of topics and provide opportunity for discussions with stalwarts of materials research

ABOUT THE INSTITUTE

Maulana Azad National Institute of Technology is an Institution of National Importance. The institute has been named after the great scholar, educationist and the first Education Minister of Govt. of India, Maulana Abul Kalam Azad. The Govt. of India. MANIT provides graduation in 9 disciplines with 250 teaching faculty to 4250 students, the Institute is successfully meeting the objective of producing skilled human power of the highest quality to cope up with challenges of ever evolving industrial needs of the country. It is situated at Bhopal, capital of Madhya Pradesh which is well connected to all major cities of India.
